Dear Hiring Manager,

I am writing to express my interest in an SIC position with your company. With 1,616+ total hours, 108 multi-engine, 27 turbine (including 18 turbojet in the Eclipse 500), and 740 hours of dual instruction given, I bring a strong foundation of flight experience and a genuine passion for charter and corporate aviation.

My background includes right-seat time in the Eclipse 500, King Air 350i and 300, Pilatus PC-12, and Cirrus Vision Jet, where I have developed solid multi-crew coordination and CRM skills under the mentorship of experienced captains. As an independent CFII, I train students daily across a wide variety of aircraft, which has sharpened my decision-making and communication abilities.

Prior to aviation, I spent over 20 years in the film and television industry as a composer and drone operator, including two seasons on Top Gear America. That career taught me how to perform under pressure, adapt to rapidly changing conditions, and work seamlessly within a team.

I am committed to building a long-term career in Part 135 and Part 91 operations — not as a stepping stone, but as my professional home. I would welcome the opportunity to contribute to your team and grow within your organization.

Sincerely,
Russell Spurlock

Russell Spurlock
